Directors' Report

For the year ended 31 December 2017

The Directors are pleased to present to the distinguished members this Annual Report, together with the Audited Financial Statements of the Company for the year ended 31st December, 2017.

1 About the Company

The Company was incorporated in Nigeria as a private limited liability company on 9th January, 1959 and was converted to a public limited liability company in 1973. The Company's shares were quoted on the Nigerian Stock Exchange with effect from 14th March, 1974. Its subsidiary, Lewis Berger Paints Ghana Limited, was incorporated in Ghana with effect from 22nd October, 2013 as a private limited liability company. The principal activities of the Company remain the manufacturing and marketing of paints and allied products.

2 Summary of the Financial Statements

Information relating to changes in fixed assets during the year is indicated in the notes to the financial statements. In the opinion of the Directors, the fair value of the Company's properties is not substantially less than the value shown in the Financial Statements. The summary of the results is as follows:

<i>In thousands of naira</i>	<u>2017</u>	<u>2016</u>
Revenue	3,092,445	2,602,824
Results from operating activities	339,524	278,317
Profit before tax	339,456	271,770
Profit for the year	246,276	224,007
Total comprehensive income for the year	265,250	234,219

3 Dividend

The Directors are pleased to recommend to shareholders, the payment of a dividend of * per share for the 2017 financial year which amounts to NXX million, subject to the approval of the members of the Annual General Meeting (2016: N144,912,000), that is, 50 kobo per share). If approved, the dividend will be paid less withholding tax to members whose names appear in the Company's Register of Members as at the close of business on May 11, 2018.

4 Corporate Governance

4.1 Whistleblowing: The Board encourages the exposure of unethical practices and all reported cases are investigated while the whistle blower is protected. Our Whistle Blowing Policy is displayed throughout our premises and on our website. Berger Paints Nigeria Plc. conducts its business with integrity and diligence and with total consideration for the interest of the shareholders and other stakeholders.

4.2 Respect For Law: Berger Paints Nigeria Plc. ensures that its existence and operations remain within the law and its employees are required to comply with the laws and regulations of Nigeria. To this end, the Company has a Code of Ethics which is publicly available and subscribed to by directors, staff and contractors. The Company, being a listed Company strives to comply with all laws and regulations, including post-listing requirements of the Nigerian Stock Exchange and the Rules and Regulations of the Securities and Exchange Commission, as well as the Code of Corporate Governance. To this end, returns were made periodically to the relevant regulatory authorities as at when due.

4.3 Role In The Larger Society: Berger Paints Nigeria Plc. remains undisputedly, a leading paints manufacturer in this country, and as an integral part of the Nigerian society, the Company plays numerous roles. Apart from being a major employer of labour, Berger Paints is a supplier, a customer, a partner as well as a willing taxpayer. In doing all these, the Company impacts on the society in no small way. The Company's relationship with the shareholders and stakeholders is cordial and objective.

4.4 Integrity: The Company strives to maintain the highest standards of integrity in its operations. Accordingly, the Company condemns and does not give nor receive directly or otherwise any bribes, gratifications or obtain improper advantages for any business or financial gains. It is our policy to avoid any situation that will impact negatively on our operations.

5 Board of Directors

5.1 Composition of the Board and Attendance at Meetings: During the year under review, the Company was managed by a Board of ten Directors consisting of two Independent Non-Executive Directors (which included the Chairman), seven Non-Executive Directors and one Executive Director (i.e. the Managing Director). The Board met 4 times in 2017. In compliance with Section 258(2) of the Companies and Allied Matters Act, CAP C20, Laws of the Federation of Nigeria, 2004, the record of Directors' attendance at Board meetings is exhibited for inspection at the meeting. It is summarized hereunder:

SN	Member	23-Mar	27-Jul	Oct. 26	Dec. 14	No. (4)	%

9 Quality Policy & Innovation

Berger Paints remains a forward-looking organization, which places premium on quality products. The Company is committed to improving quality through the use of identified processes, which are constantly monitored to meet approved international and local standards. These carefully monitored processes make it imperative that only high quality paints are produced and marketed by the Company. In recognition of the above, the Company has been awarded the latest International Standard Certification (ISO 9001-2008).

10 Post Balance Sheet Events

There are no significant post balance sheet events which have not been provided for or disclosed in these financial statements.

11 Risk Management & Internal Controls

There is an effective internal audit function, in addition to which the risk management control and compliance system operates efficiently. An Enterprise Risk Management Framework has been approved by the Board and implemented by Management. The objectives of the Company's risk management policy are:

- 11.1 Maximise the benefit from new opportunities, challenges and initiatives;
- 11.2 Avoid damage to our reputation;
- 11.3 Take appropriate risk for return while improving shareholders' value;
- 11.4 Prioritise effectively between different risks; and
- 11.5 Demonstrate good corporate governance by managing our risks effectively.

12 Safety and Environmental Policy

The safety of our employees is a priority. The Company has taken every precaution to provide a safe workplace and there is a zero tolerance policy for workplace violence. Our operations and procedures are regularly certified by both state and federal regulatory agencies. Accidents are investigated, and corrective actions put in place to forestall future occurrences. The Company has developed a number of policies to promote safety and minimize accidents in the workplace, and it ensures the safety of its staff and visitors through various means including:

- 12.1 Ensuring that plant & equipment are adequately maintained to prevent accidents;
- 12.2 Using up to date methods to control hazards inherent in our operations;
- 12.3 Providing personal protective equipment and enforcing its usage;
- 12.4 Ensuring that safe work procedures are followed;
- 12.5 Ensuring that jobs are awarded only to contractors with laudable safety performances;
- 12.6 Ensuring that the working environment is clean, tidy and conducive;
- 12.7 Implementing an effective emergency management program so as to minimize adverse impact on human and the environment, in case of emergencies; and
- 12.8 Continuously training employees to create safety consciousness.

13 Sustainability

Part of the fulfilment of our environmental friendliness practice is to conduct a periodic environmental audit to monitor the significant environmental aspects of our operations and put in place controls that will minimize or eliminate their adverse impact on the environment. The Company also complies with all environmental laws and strives to minimize environmental impact associated with our activities. In addition, workplace accidents nor fatalities recorded. In its quest to apply the most environmentally beneficial options, the Company carried out the following:

- 13.1 The use of modern technology to reduce environmental pollution;
- 13.2 Conservation of resources in a cost effective manner;
- 13.3 The proper disposal or recycle of waste; and
- 13.4 The assessment of the adverse impact of our raw materials or new products on both humans and the environment.

14 Wellbeing, Diversity and Other Human Resource Policies

- 14.1 The Company's policy on managing diversity recognizes that there are differences among employees and that harnessing these differences create a productive environment in which everyone feels valued, their talents utilized and organizational goals met. We have also created an enabling environment where patterns of thinking are nurtured as a way of developing our employees as agents of change. Berger Paints Nigeria Plc. is committed to providing employment for people with physical challenges who are able to work.
- 14.2 Berger Paints Nigeria Plc. does not permit direct or indirect discrimination against any employee on the grounds of ethnicity, nationality, sex, sexual orientation, disability, religion, marital status or age. The Company encourages equal opportunities as a human resources policy and in dealing with human resources issues, we encourage equity, fair play, learning, quality of life, ethical operations among others.
- 14.3 Partnership, representation and dialogue are encouraged through staff associations. Our Talent Management Policy and the Technical Sales Trainee Scheme are examples of a commitment to continuous development of the skills and abilities of employees in order to maximize their contribution.
- 14.4 Berger Paints Nigeria Plc. has a fully funded and comprehensive health policy that covers not only members of the Berger family but their dependents as well, under a comprehensive plan with approved Health Management Organisations (HMO). In addition, we have an in-house clinic staffed by qualified personnel and conduct regular health and wellness talks for
- 14.5 In compliance with the requirements of the National Health Insurance Act, our employees are given the opportunity to choose a health provider nearest to their residence, for health related matters outside the workplace.
- 14.6 We also have a policy on HIV/AIDS and other serious diseases which aims to reassure employees that AIDS is not spread through casual contact during normal work practices and also to reduce unrealistic fears about contacting the certain diseases in the work place.
- 14.7 The Company is fully compliant with the provisions of the revised Pension Reform Act, 2015. Berger Paints staff enjoy highly subsidized meals served in a hygienically maintained canteen. The Company believes that productivity emanates from a healthy mind in a healthy body.

15 Outsourced Business Partners

The Company has numerous Outsourced Business Partners and dealers all over the country who have contributed to the turnover and to whom the Company remains grateful.

16 Suppliers

Our raw materials are sourced both locally and internationally.

17 Independent Auditor

Messrs. KPMG Professional Services, having satisfied the relevant corporate governance rules on their tenure in office have indicated their willingness to continue in office as auditors to the Company. In accordance with section 357(2) of the Companies and Allied Matters Act of Nigeria, CAP C20 Laws of the Federation of Nigeria, 2004 therefore, the auditors will be re-appointed at the next annual general meeting of the Company without any resolution being passed.

18 Compliance with Regulatory Requirements & Company Policies

The Company in the year under review did not contravene the rules of any of the regulatory authorities and did not receive any warnings or sanctions. The Company has adopted a policy regulating the procedure for handling shareholders' complaints, as well a policy on trading in the Company's shares. These can be found on the Company's website at www.bergerpaintsnig.com.

19 Responsibility for Accuracy of Information

Pursuant to Article 2.2.4 of the Amended Listing Rules 2015 of the Nigerian Stock Exchange, the Directors of Berger Paints Nigeria Plc. accept responsibility for the accuracy of the information contained in this Report.

BY ORDER OF THE BOARD

OLUSEUN OLUWOLE FCIS

Company Secretary

FRC/2013/NBA/00000000856

March 29, 2018

Statement of Directors' Responsibilities

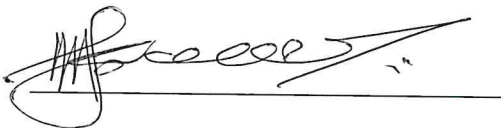

For the year ended 31 December 2017

The directors accept responsibility for the preparation of the annual financial statements that give a true and fair view in accordance with International Financial Reporting Standards (IFRS) and in the manner required by the Companies and Allied Matters Act Cap C.20, Laws of the Federation of Nigeria, 2004 and the Financial Reporting Council of Nigeria Act, 2011.

The directors further accept responsibility for maintaining adequate accounting records as required by the Companies and Allied Matters Act Cap C.20, Laws of the Federation of Nigeria, 2004 and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement whether due to fraud or error.

The directors have made an assessment of the Company's ability to continue as a going concern and have no reason to believe that the Company will not remain a going concern in the year ahead.

SIGNED ON BEHALF OF THE BOARD OF DIRECTORS BY:

Oladimeji Alo (FRC/2013/CIPMN/00000004115)
Chairman
29 March 2018

Peter Folikwe (FRC/2015/NIMN/0000012628)
Managing Director

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of **Berger Paints Nigeria Plc**

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Berger Paints Nigeria Plc ("the Company"), which comprise the statement of financial position as at 31 December 2017, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 13 to 61.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2017, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) and in the manner required by the Companies and Allied Matters Act, Cap C.20, Laws of the Federation of Nigeria, 2004 and the Financial Reporting Council of Nigeria Act, 2011.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants (IESBA Code)* together with the ethical requirements that are relevant to our audit of the financial statements in Nigeria and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1. Revenue recognition

Revenue is the most significant item in the Statement of Profit or Loss and Other Comprehensive Income and impacts key performance indicators on which the Company and its directors are assessed. Its significance makes revenue a matter of focus in our audit. Furthermore, the recognition and measurement of revenue from rendering painting services to customers requires the application of significant judgment by management in the estimation of the percentage of completion of individual contracts at year end.

Our procedures included the following:

- Evaluated the design, implementation and operating effectiveness of key internal controls established within the sales process;
- Obtained a sample of revenue transactions recognised for the year and agreed to invoices and delivery waybills acknowledged by customers;

KPMG Professional Services, a Partnership established under Nigeria law, is a member of KPMG International Cooperative ("KPMG International"), a Swiss entity. All rights reserved.

- Assessed the accuracy of a sample of journal entries relating to revenue by checking them to supporting documentation such as approved credit notes to customers with respect to sales returns and rebates;
- Challenged management's basis for recognition and measurement of revenue from painting services to customers by recalculating the proportion that costs incurred to date bears to the estimated total costs of the service;
- Recalculated rental revenue recognised in respect of the Company's investment property based on the report issued by the external property manager and;
- Performed cut-off procedures by checking that a sample of revenue transactions occurring prior to, and immediately after the year end date were recognized in the correct period.

The Company's accounting policy and notes on revenue are shown in notes 3 and 4 respectively of the financial statements.

Other Information

The directors are responsible for the other information. The other information comprises the Corporate Information, Financial Highlights, Directors Report, Statement of Directors' Responsibilities, Report of the Audit Committee and Other National Disclosures (but does not include the financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report. It also includes financial and non-financial information such as the Mission Statement, Vision Statement, Shared Values, Corporate Profile, Board of Directors, Directors' Profile, Chairman's Statement, Notice of Annual General Meeting, Shareholders' Information, Corporate Social Responsibility Activities, amongst others (together "Outstanding reports"), which are expected to be made available to us after that date.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The Directors are responsible for the preparation of financial statements that give a true and fair view in accordance with IFRS and in the manner required by the Companies and Allied Matters Act, Cap C.20, Laws of the Federation of Nigeria, 2004 and the Financial Reporting Council of Nigeria Act, 2011, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit Committee and the Board of Directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Compliance with the requirements of Schedule 6 of the Companies and Allied Matters Act, Cap C.20, Laws of the Federation of Nigeria, 2004

In our opinion, proper books of account have been kept by the Company, so far as appears from our examination of those books and the Company's statement of financial position and statement of profit or loss and other comprehensive income are in agreement with the books of account.

Notes to the Financial Statements ***For the year ended 31 December 2017***

1 Reporting Entity

Berger Paints Nigeria Plc ("the Company") was incorporated in Nigeria as a private limited liability company in 1959 and was converted to a public liability company in 1973. Its registered office address is at 102, Oba Akran Avenue, Ikeja Industrial Estate, Ikeja, Lagos. The Company is listed on the Nigerian Stock Exchange.

The principal activities of the Company continue to be the manufacturing, sale and distribution of paints and allied products throughout the country and rent of investment property.

2 Basis of Preparation

(a) Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and in the manner required by the Companies and Allied Matters Act Cap C.20, Laws of the Federation of Nigeria, 2004 and the Financial Reporting Council of Nigeria Act, 2011. The financial statements were authorised for issue by the Board of Directors on 29 March 2017.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following: non-derivative financial instruments which are initially measured at fair value and subsequently measured at amortised cost.

- Non-derivative financial instruments: Initially measured at fair value and subsequently measured at amortised cost.
- Inventories: Lower of cost and net realisable value.

The methods used to measure fair value are discussed further in Note 2(e).

(c) Functional and presentation currency

These financial statements are presented in Naira, which is the Company's functional currency. All financial information presented in Naira has been rounded to the nearest thousand except where otherwise indicated.

(d) Use of estimates and judgment

In the preparation of these financial statements, management has made judgments, estimates and assumptions that affect the application of the Company's accounting policy and the reported amounts of assets, liabilities, income and expenses. Actual result may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are included in the following notes:

Note 3(Q) and 28	Leases: whether an arrangement contains a lease
Note 3(D),(F),11 and 12	Determination of the useful life of leasehold land
Note 3(L) and 4	Recognition and measurement of revenue from

Information about assumptions and estimation uncertainties that have most significant effects on amounts recognised in the financial statements is included in the following notes;

Note 2(e) and 27	Determination of fair values
Note 3(G) and 16	Impairment test: key assumptions underlying recoverable amounts,
Note 23(a)	Determination of repayment cashflows in respect of the investment property development financing arrangement.

(e) Measurement of fair values

A number of the Company's accounting policies and disclosures require the determination of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1	–	quoted prices (unadjusted) in active markets for identical assets or liabilities
Level 2	–	inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. as derived from prices).
Level 3	–	inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in Note 27 – Financial instruments- Fair values and financial risk management.

3 Significant Accounting Policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements. Set out below is an index of the significant accounting policies, the details of which are available on the pages that follow.

A. Foreign currency transactions	20	O. Income tax	29
B. Financial instruments	20	P. Earnings per share	29
C. Capital and other reserves	21	Q. Leases	30
D. Property, plant and equipment	21	R. Statement of cashflows	30
E. Intangible assets	23	S. Operating segment	31
F. Investment property	23	T. Dividends	31
G. Impairment	24	U. Prepayments and advances	31
H. Contingent liabilities and contingent assets	25	V. Deposit for imports	31
I. Provisions	26	W. Investment in subsidiary	31
J. Employee benefits	26	X. Related parties	32
K. Inventory	27	Y. New standards and interpretations	
L. Revenue	27	not yet adopted	32
M. Finance income and finance costs	28	Z. New currently effective	33
N. Government grants	28	requirements	

A. Foreign currency transactions

Transactions denominated in foreign currencies are translated and recorded in Naira at the actual exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated to naira at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences arising on retranslation are recognised in profit or loss.

B. Financial instruments

i. Non-derivative financial assets

The Company initially recognises loans and receivables on the date that they are originated. All other financial assets are recognised initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability.

Subsequent to initial recognition, non-derivative financial assets are measured as described below:

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses. Loans and receivables comprise trade and other receivables and cash & cash equivalents.

Available-for-sale financial assets

Available-for-sale (AFS) financial assets are non-derivatives financial assets that are either designated as AFS or are not classified as (a) loans and receivables, (b) held-to-maturity investments or (c) financial assets at fair value through profit or loss.

Listed equities held by the Company that are traded in an active market are classified as AFS. These assets are initially recognised at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses, are recognised in OCI and accumulated in the fair value reserve. When these assets are derecognised, the gain or loss accumulated in equity is reclassified to profit or loss.

Cash and cash equivalents comprise cash in hand, cash balances with banks, and short term investments with maturities of three months or less from the date of acquisition, which are subject to an insignificant risk of change in value, net of any overdraft balances.

ii. Non-derivative financial liabilities

All financial liabilities are recognised initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

The Company has the following non-derivative financial liabilities: Trade & other payables, and loans and borrowings. Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortised cost using the effective interest method.

Financial liabilities, for which the Company has an unconditional right to defer settlement of the liability for at least twelve months after the statement of financial position date, are classified as non-current liabilities.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

C. Capital and other reserves

i. Share capital

The Company has only one class of shares, ordinary shares. Ordinary shares are classified as equity. When new shares are issued, they are recorded in share capital at their par value. The excess of the issue price over the par value is recorded as share premium. All ordinary shares rank equally with regard to the Company's residual assets. Holders of these shares are entitled to dividends as declared from time to time and are entitled to one vote per share at general meetings of the Company. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

ii. Share premium

When the company issues shares at a premium, whether for cash or otherwise, a sum equal to the aggregate amount or value of the premium on those shares is transferred to the share premium account. Any transaction costs associated with the share issues are deducted from share premium account, net of any related income tax benefits. The use of the share premium account is governed by S.120 (3) of the Companies and Allied Matters Act, CAP C.20, Laws of the Federation of Nigeria, 2004,

iii. Retained earnings

Retained earnings represents the Company's accumulated earnings since its inception, less any distributions to shareholders, and net of any prior period adjustments. A negative amount of retained earnings is reported as accumulated deficit.

iv. Fair value reserve

Fair value reserve comprises the cumulative net change in available-for-sale financial assets until the assets are derecognised or impaired.

D. Property, plant and equipment

i. Recognition and measurement

The cost of an item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of construction recognised includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and borrowing costs on qualifying assets. Items of property, plant and equipment under construction are disclosed as capital work-in-progress.

If significant part of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

ii. **Subsequent cost**

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

iii. **Derecognition**

The carrying amount of an item of property, plant and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal.

Gains and losses on derecognition or disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised net in profit or loss in the statement of profit or loss and other comprehensive income.

iv. **Depreciation**

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is recognised in profit or loss on a straight line basis over the estimated useful lives of each part of an item of property, plant and equipment which reflects the expected pattern of consumption of the future economic benefits embodied in the asset. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Capital work-in-progress is not depreciated.

The estimated useful lives for the current and comparative periods are as follows:

• Leasehold land	–	Unlimited
• Buildings	–	20 years
• Plants and machinery		
- Fixed plant	–	12 years
- Movable plant	–	7 years
- Generators	–	5 years
• Motor vehicles		
- Trucks	–	6 years
- Cars	–	4 years
• Furniture and fittings	–	8 years
• Computer equipment	–	2 years

Depreciation methods, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate.

The attributable cost of each asset is transferred to the relevant asset category immediately the asset is available for use and depreciated accordingly.

E. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible assets may be impaired. The amortisation period and the amortisation method for an intangible asset with finite useful life are reviewed at the end of each year, changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the assets are considered to modify the amortisation period or method, as appropriate, and are treated as charges in accounting estimates.

The amortisation expense of intangible assets with finite lives is recognised in the profit or loss as the expense category that is consistent with the function of the intangible assets. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the profit or loss when asset is derecognised.

Purchased software with finite useful lives are recognised as assets if there is sufficient certainty that future economic benefits associated with the item will flow to the entity. Amortisation is calculated using the straight-line method over three (3) years.

F. Investment property

i. Recognition and measurement

An investment property is either land or a building or part of a building held by the Company to earn rentals or for capital appreciation or both.

Investment property is initially measured at cost, including transaction costs. Such cost does not include start-up costs, abnormal waste, or initial operating losses incurred before the investment property achieves the planned level of occupancy.

The cost model is applied in accounting for investment property. The investment property is recorded at cost less any accumulated depreciation and impairment losses.

ii. Subsequent expenditure

The cost of replacing a part of an item of investment property is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of investment property are recognised in profit or loss as incurred.

iii. Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each part of the investment property which reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

Except for leasehold land, the estimated useful lives for the current and comparative periods are as follows:

• Buildings	–	20 years
• Leasehold land	–	unlimited

Depreciation methods, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate.

iv. Transfers

Transfers to, or from, investment property are made when there is a change in use, evidenced by:

- commencement of owner-occupation, for a transfer from investment property to owner-occupied property;
- commencement of development with a view to sale, for a transfer from investment property to inventories;
- end of owner-occupation, for a transfer from owner-occupied property to investment property; or
- commencement of an operating lease to another party, for a transfer from inventories to investment property.

Transfers to, or from, investment property does not change the carrying amount of the property transferred, and they do not change the cost of the property for measurement or disclosure purposes.

G. Impairment

i. Financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be reliably estimated.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, or the disappearance of an active market for a security. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

The Company considers evidence of impairment for receivables at both a specific asset and collective level. All individually significant receivables are assessed for specific impairment. All individually significant receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Receivables that are not individually significant are collectively assessed for impairment by grouping together receivables with similar risk characteristics.

In assessing collective impairment the Company uses historical trends of the probability of default, timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

For equity instrument classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment. Where such evidence exists, the cumulative gain or loss that has been previously recognised in Other Comprehensive Income (OCI) and transferred to equity is removed from equity (through OCI) and recognised in profit or loss. Reversals of impairment of equity instruments are not recognised in the profit or loss. Subsequent increases in the fair value of equity instruments after impairment are recognised directly in OCI.

For debt instruments classified as available for sale, impairment is assessed based on the same criteria as all other financial assets above. Reversals of impairment of debt instruments are recognised in the profit or loss.

ii. Non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit, or CGU").

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

H. Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are only disclosed and not recognised as liabilities in the statement of financial position. If the likelihood of an outflow of resources is remote, the possible obligation is neither a provision nor a contingent liability and no disclosure is made.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and its recognition is appropriate.

A contingent asset is disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognised in the financial statements of the period in which the change occurs. If an inflow of economic benefits has become probable, an entity discloses the contingent asset.

I. Provisions

A provision is recognised, if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost in profit or loss.

J. Employee benefits

i. Defined contribution plan

A defined contribution plan is a post-employment benefit plan (pension fund) under which the Company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts.

In line with the provisions of the Pension Reform Act 2014, the Company has instituted a defined contribution pension scheme for all employees. The Company and its employees contribute a minimum of 10% and 8% of the employees annual basic salary, housing and transport allowances respectively to the scheme. Employee contributions to the scheme are funded through payroll deductions while the Company's contributions are charged to profit and loss.

On 1 January 2016, the Company increased the employer contributions to the scheme to 15% of employee's annual basic salary, housing and transport allowances.

ii. Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided in profit or loss.

A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

iii. Termination benefits

Termination benefits are recognised as an expense when the Company is committed demonstrably, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy.

Termination benefits for voluntary redundancies are recognised as an expense if the Company has made an offer of voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably. If benefits are payable more than 12 months after the reporting period, then they are discounted to their present value.

K. Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventory includes expenditure incurred in acquiring the inventory, production or conversion costs and other costs incurred in bringing them to their existing location and condition. The basis of costing is as follows:

Raw materials, non-returnable packaging materials and consumable spare parts	–	purchase cost on a weighted average basis including transportation and applicable clearing charges.
Finished products and products-in-process	–	weighted average cost of direct materials and labour plus a reasonable proportion of manufacturing overheads based on normal levels of activity.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of conversion and selling expenses.

L. Revenue

i. Sale of goods

Revenue from the sale of goods in the course of ordinary activities represents sale of paints and allied products and is measured at the fair value of the consideration received or receivable, net of value added tax, sales returns, trade discounts and volume rebates.

Revenue is recognised when significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods and the amount of revenue can be measured reliably.

If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognised as a reduction of revenue as the sales are recognised.

ii. Rendering of service - supply and apply services contract

Supply and apply services contract revenue results from rendering painting services to customers. These services are rendered based on specific negotiated contracts with the customers.

Contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments, to the extent that it is probable that they will result in revenue and can be measured reliably.

If the outcome of a service can be estimated reliably, then contract revenue is recognised in profit or loss in proportion to the stage of completion of the contract. The stage of completion is assessed by recalculating the proportion that costs incurred to date bears to the estimated total costs of the service. Otherwise, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

Contract expenses are recognised as incurred unless they create an asset related to future contract activity. An expected loss on a contract is recognised immediately in profit or loss.

iii. Investment property rental income

Rental income from investment property is recognised as revenue on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease. Rental income from other properties are recognised as other income.

M. Finance income and finance costs

Finance income comprises interest income on funds invested, dividend income and reclassification of net gains previously recognised in OCI. Interest income is recognised as it accrues in profit or loss, using the effective interest method. Dividend income is recognised in profit or loss on the date that the Company's right to receive payment is established.

Finance costs comprise interest expense on financial liabilities and impairment losses recognised on financial assets (other than trade receivables). Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

Foreign currency gains and losses on financial assets and financial liabilities are reported on a net basis as either finance income or finance cost depending on whether foreign currency movements are in a net gain or net loss position.

N. Government grant

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Company recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

O. Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that they relate to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax includes company income tax, tertiary education tax and capital gains tax.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates statutorily enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is recognised in profit or loss account except to the extent that it relates to a transaction that is recognised directly in equity. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the amount will be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

P. Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held (if any). Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held (if any), for the effects of all dilutive potential ordinary shares.

Q. Leases

i. Determining whether an arrangement contains a lease

At inception of an arrangement, the Company determines whether the arrangement is or contains a lease.

At inception or on reassessment of an arrangement that contains a lease, the Company separates payments and other consideration required by the arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Company concludes for a finance lease that it is impracticable to separate the payments reliably, then an asset and a liability are recognised at an amount equal to the fair value of the underlying asset; subsequently, the liability is reduced as payments are made and an imputed finance cost on the liability is recognised using the Company's incremental borrowing rate.

ii. Leased assets

Assets held by the Company under leases which transfer to the Company substantially all of the risks and rewards of ownership are classified as finance leases. On initial recognition, the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset. Assets held under other leases are classified as operating leases and are not recognised in the Company's statement of financial position.

iii. Lease payments

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease. Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

R. Statement of cashflows

The statement of cash flows is prepared using the indirect method. Changes in statement of financial position items that have not resulted in cash flows such as translation differences, and other non-cash items, have been eliminated for the purpose of preparing the statement. Dividend paid to ordinary shareholders are included in financing activities while finance income received is included in investing activities.

S. Operating Segment

An operating segment is a distinguishable component of the Company that earns revenue and incurs expenditure from providing related products or services (business segment), or providing products or services within a particular economic environment (geographical segment), and which is subject to risks and returns that are different from those of other segments.

The Company's primary format for segment reporting is based on business segments. The business segments are determined by management based on the Company's internal reporting structure.

All operating segments' operating results are reviewed regularly by the Management Committee, which is considered to be the chief operating decision maker for the Company, to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the Company's Management Committee include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, head office expenses and tax assets and liabilities.

T. Dividends

Dividend payable is recognised as a liability in the period in which they are declared and the shareholders right to receive payment has been established.

Dividends which remained unclaimed for a period exceeding twelve (12) years from the date of declaration and which are no longer actionable by shareholders in accordance with section 385 of the Companies and Allied Matters Act of Nigeria are written back to retained earnings.

U. Prepayments and advances

Prepayments and advances are non-financial assets which result when payments are made in advance of the receipt of goods or services. They are recognised when the Company expects to receive future economic benefits equivalent to the value of the prepayment. The receipt or consumption of the goods or services results in a reduction in the prepayment and a corresponding increase in expenses (assets) for that reporting period.

V. Deposit for imports

Deposit for imports are non-financial assets which result when letters of credit are opened with the bank for the importation of raw materials and plant and machinery. They are recognised when the Company expects to receive future economic benefits equivalent to the value of the deposit made.

W. Investment in subsidiary

Subsidiaries are entities controlled by the Company. Investments in subsidiaries are carried at cost less accumulated impairment losses in the Company's statement of financial position. Where the recoverable amount of the investment is less than the carrying amount, an impairment is recognised in profit or loss. On disposal of investments in subsidiaries, the difference between disposal proceeds and the carrying amounts of the investments are recognised in profit or loss.

X. Related parties

Related parties include the Company's shareholders, directors, their close family members and any employee who is able to exert a significant influence on the operating policies of the Company. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity.

Related parties transactions of similar nature are disclosed in aggregate except where separate disclosure is necessary for understanding of the effects of the related party transactions on the financial statements of the entity.

Y. New standards and interpretations not yet adopted

Standards issued but not yet effective

– IFRS 9 - Financial Instruments

In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments which replaces IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early adoption permitted. The Company will apply IFRS 9 as issued in July 2014 initially on 1 January 2018.

Classification and Measurement – Financial Assets

IFRS 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and the 'solely payment of principal and interest' cash flow characteristics of the financial assets.

IFRS 9 includes three principal classification categories for financial assets: measured at amortised cost, FVOCI and FVTPL. It eliminates the existing IAS 39 categories of held to maturity, loans and receivables and available for sale. The Company is not significantly exposed to financial instruments and most of its financial assets will be classified as measured at amortised on the date of initial application. Therefore, the Company does not anticipate any significant financial impact on its equity arising from the adoption of the classification and measurement requirements of IFRS 9 on 1 January 2018.

Impairment

IFRS 9 replaces the 'incurred loss' model in IAS 39 with a forward-looking 'expected credit loss' (ECL) model. ECLs are a probability-weighted estimate of credit losses over the expected life of the financial instrument. Credit losses are the present value of expected cash shortfalls i.e. the present value of the difference between the cash flows due to the entity in under the contract; and the cash flows that the entity expects to receive. IFRS 9 does not prescribe a single method to measure ECLs. Rather, it acknowledges that the methods used to measure ECLs may vary based on the type of financial asset and the information available. The standard allows the use of practical expedients when estimating ECLs, to the extent that its measurement reflect an unbiased and probability weighted amount, time value of money and reasonable and supportable information that is available without undue cost or effort. The standard contains a simplified approach that uses provision matrix to measure lifetime ECLs for trade receivables.

Changes in accounting policies resulting from IFRS 9 will be applied retrospectively as at 1 January 2018, but with no restatement of comparative information for prior years. Consequently, the Company will recognise any difference between the carrying amount of financial instruments under IAS 39 and the carrying amount under IFRS 9 in the opening retained earnings (or other equity components) of the accounting period including the date of initial application.

The total estimated adjustment (net of tax) to the opening equity at the date of initial application is not material.

– **IFRS 15 - Revenue from Contract with Customers**

This standard combines, enhances and replaces specific guidance on recognising revenue with a single standard. It defines a new five-step model to recognise revenue from customer contracts. The Company has undertaken a review of the main types of commercial arrangements used with customers under this model and has tentatively concluded that the application of IFRS 15 will not have a material impact on the financial position. The effect identified so far is on a small proportion of revenue relating to supply and apply services (less than 2% of annual revenue), which is expected to be recognised at a point in time under the new standard. This is not expected to have a material impact on the profit or loss and financial position of the Company.

This standard is mandatory for the accounting period beginning on 1 January 2018. The Company is planning to apply the standard retrospectively.

– **IFRS 16 - Leases**

This standard will replace IAS 17 and sets out the principles for the recognition, measurement, presentation and disclosure of leases. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract, i.e. the customer ('lessee') and the supplier ('lessor'). IFRS 16 eliminates the classification of leases as operating leases or finance leases as required by IAS 17 and introduces a single lessee accounting model. Applying that model, a lessee is required to recognise:

- a. assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value; and
- b. depreciation of lease assets separately from interest on lease liabilities in the profit or loss.

The Company is not expected to be significantly impacted by the single lessee accounting model of IFRS 16.

Z. Other standards

The following amended standards and interpretations are not expected to have a significant impact on the Company's financial statements:

- Annual improvements to IFRSs 2014 - 2016 Cycle - Amendments to IFRS 1 and IAS 28
- Transfers of Investment Property (Amendments to IAS 40)
- IFRIC 22 Foreign Currency Transactions and Advance Consideration
- IFRIC 23 Uncertainty over Income Tax Treatments

Notes to the Financial Statements
For the year ended 31 December 2017

4 Revenue	<u>2017</u>	<u>2016</u>
Revenue for the year comprises: <i>In thousands of naira</i>		
(a) Sale of paints and allied products	2,994,490	2,493,395
Contract revenue	49,500	52,476
Investment property rental income	48,454	56,953
	<u>3,092,444</u>	<u>2,602,824</u>

Nigeria is the Company's primary geographical segment as all sales in the current and prior year were made in the country.

5 Other income

(a) Other income comprises:

In thousands of naira

	<u>2017</u>	<u>2016</u>
Sale of Scrap	10,551	9,567
Rental income on property subleases (Note 5(a(i)))	45,369	26,916
Profit from disposal of property, plant and equipment	14,669	160,971
Insurance claims received	1,356	3,725
Income from new dealership registration (Note 5(a(ii)))	27,873	30,274
Gain from sale of available for sale financial assets (Note 20(c))	83,374	-
Sale of diesel oil	249	4,013
	<u>183,441</u>	<u>235,466</u>

(i) This represents income earned from leases of an insignificant portion of the Company's building properties to third parties.

(ii) This represents a one-off fee usually received from newly registered dealers/distributors.

6 Finance income and finance cost

Recognized in profit or loss:

In thousands of naira

	<u>2017</u>	<u>2016</u>
Interest income on bank deposits	24,507	26,975
Exchange gain	5,381	1,390
Finance income	<u>29,888</u>	<u>28,365</u>
Interest expense on short term borrowings	-	(666)
Exchange loss	(12,095)	-
Interest expense on financial liabilities measured at amortised costs.	(17,861)	(34,246)
Finance cost	<u>(29,956)</u>	<u>(34,912)</u>
Net finance costs recognised in profit or loss	<u>(68)</u>	<u>(6,547)</u>

Notes to the Financial Statements
For the year ended 31 December 2017

7 Profit before tax

(a) Profit before tax is stated after charging/(crediting):

<i>In thousands of naira</i>	Note	2017	2016
Directors' emoluments	8(d)	45,733	28,319
Depreciation	11(a) & 13	106,788	106,643
Amortisation	12	6,883	-
Personnel expenses	8(a)	588,231	566,695
Auditors' remuneration		17,500	16,275
Profit on disposal of property, plant and equipment		(14,669)	(160,971)

(b) Analysis of expenses by nature

<i>In thousands of naira</i>	2017	2016
Directors emoluments	45,733	28,319
Personnel expenses (Note 8(a))	588,231	566,695
Training expenses	14,455	8,750
Repairs and maintenance	88,755	73,934
Office and corporate expenses	33,802	36,307
Rates	15,876	2,813
Utilities	58,277	34,399
Insurance	8,324	6,206
Travel, transport and accommodation	115,513	95,980
Rent expenses	4,318	7,290
Subscriptions and donations	7,783	7,168
Depreciation (Note 11(a))	106,788	106,643
Amortisation (Note 12)	6,883	-
Printing and stationery	7,723	6,601
Legal and professional services fees	42,525	104,799
Auditors' remuneration	17,500	16,275
(Write-back)/Impairment loss on trade receivables (Note 16(b))	(618)	6,243
Bank charges	6,403	7,524
Advertisement and publicity	69,115	101,276

(b) **Assets pledged as security**

No asset of the company was pledged as security for loan as at 31 December 2017 (2016: Nil)

(c) **Impairment of property, plant and equipment**

No impairment loss is recognised for the year (2016: Nil).

(d) **Capital commitments**

Capital expenditure commitments for the year 2017 authorised by the Board of Directors comprise:

In thousands on naira

Approved and contracted

Approved but not contracted

	2017	2016
Approved and contracted	341,778	26,090
Approved but not contracted	85,444	149,844
	427,222	175,934

(e) **Property, plant and equipment under construction**

Expenditure on capital work in progress as at 31 December 2017 is analysed as follows:

In thousands on naira

Plant and machinery

Buildings

	2017	2016
Plant and machinery	1,036,934	714,060
Buildings	453,231	433,155
	1,490,165	1,147,215

Included in this amount of capital work in progress are capitalised borrowing costs of N54.9 million (2016: Nil), at a capitalisation rate of 100%.

(f) **Assets held on finance lease**

The leasehold land is held under finance lease arrangements for a minimum lease term of 99 years. The lease amounts were fully paid at the inception of the lease.

The classification of the lease of land as a finance lease is on the basis that the lease transfers substantially all of the risks and rewards incidental to ownership of the land to the Company.

The Company's intangible asset represents investment on licence and technical agreement on Microsoft Navision ERP applications. The Microsoft Navision ERP application was acquired in 2017 to be amortised to income statement over a period of three years.

Intangible assets amortisation charged to profit or loss amounts to N6.9m (2016-Nil) and is included as part of administrative expenses.

Notes to the Financial Statements
For the year ended 31 December 2017

13 Investment property

The movement on these accounts was as follows:

<i>In thousands of naira</i>	2017	2016
Cost		
Balance at 1 January	604,468	604,468
Balance at 31 December 2017	604,468	604,468
Accumulated depreciation		
Balance at 1 January	116,876	95,311
Charge for the year	21,297	21,565
Balance at 31 December 2017	138,173	116,876
Carrying amounts	466,295	487,592

Investment property comprises the Company's land and building at Abuja (hereinafter referred to as Berger Paints Plaza). The Company completed and commissioned the Berger Paints Plaza in November 2013. The Berger Paints Plaza is made up of 2,196 square meters of trade shops and offices available for commercial rent. The property has been leased to third parties and is managed on behalf of the Company by Gauge Construction Servicing Limited.

Rental income generated from investment property during the year was N48.5 million (2016: N56.9 million).

Direct operating expenses (including repairs and maintenance) arising from investment property that generated rental income during the year was N3.40 million (2016: N1.97 million).

Each of the leases contains an initial non-cancellable period of one (1) year. No contingent rents are charged.

The fair value of the investment property as at year end has been estimated to be N2.02 billion. The fair value was determined by external, independent property valuers with Financial Reporting Council of Nigeria (FRC) No: FRC/2015/NIESV/00000013406.

14 Available-for-sale financial assets

This comprises the following:

<i>In thousands of naira</i>	2017	2016
Equity	-	161
Treasury bills	-	140,651
Money market instruments	-	46,325
	-	187,137

The movement on this account during the period was as follows:

<i>In thousands of naira</i>	2017	2016
Balance at 1 January	187,137	172,119
Fair value change on investments during the year (Note 20(c))	27,903	15,018

At 31 December 2017	<u>18,175</u>	<u>18,175</u>

(c) *Short term employee payables*

Short term employee payables represents the balance of the discontinued gratuity scheme payable to employees currently in the employment of the Company. Employees are entitled to the balance accruing to them on or before exit from the Company.

The Company discontinued the staff gratuity benefits on December 31, 2015. During the current year, a subsequent agreement was reached between the representatives of the staff trade and labour unions and the Company, resulting in the discontinued gratuity benefit scheme being extended to 31 December 2016. The cost included in the profit or loss was N72.3 million. All qualifying staff were paid with the outstanding balance of N8.5 million due to staff that were yet to be paid as at year end.

<i>In thousands of naira</i>	2017	2016
Balance at 1 January	163,721	182,140
Charge for the year	79,284	-
Benefits paid	(234,474)	(18,419)
At 31 December 2017	<u>8,531</u>	<u>163,721</u>

(d) Reconciliation of changes in trade and other payables included in statement of cash flows

<i>In thousands of naira</i>	2017	2016
Movement in trade and other payables	(121,755)	49,472
Unrealised exchange loss	(2,605)	-
Accrued additions to PPE (Note 11(g))	-	(7,400)
Changes in trade and other payables per statement of cash flows	<u>(124,360)</u>	<u>42,072</u>

22 Deferred income

Deferred income comprises:

In thousands of naira

	2017	2016
Government grants	73,612	-
Advance rent income received	24,044	51,468
	97,656	51,468
Non-current	71,579	-
Current	26,077	51,468
	97,656	51,468

Government grant arises as a result of the benefit received from below-market-interest rate government-assisted loans (Bank of Industry loans) obtained to purchase items of machinery and equipment required to support the installation of the automated water base paint production plant. The production plant is under construction and the grant will be amortised on a systematic basis over the useful life of the production plant.

Due to the fact that the production plant is not yet available for use as at year end, there has been no unwinding of the government grant into profit or loss in current year.

23 Loans and borrowings

In thousands of naira

	Non-current liabilities	Current liabilities	Total
<u>2017</u>			
Investment property development financing arrangement	90,014	4,528	94,542
Bank of Industry loan	290,807	68,907	359,714
	380,821	73,435	454,256
<u>2016</u>			
Investment property development financing arrangement	122,281	1,781.00	124,062
Short term borrowings	-	3,802	3,802
	122,281	5,583	127,864

Information about the Company's exposure to interest rate, foreign currency and liquidity risks is included in Note 27.

(a) Terms and repayment schedule

				2017		2016	
<i>In thousands of naira</i>	Currency	Nominal interest rate	Year of maturity	Face Value	Carrying amount	Face Value	Carrying amount
(i) Bank of Industry loan	NGN	10%	2023	436,511	359,714	-	-
(ii) Development financing arrangement	NGN	-	2025	-	94,542	-	124,062
(iii) Short term borrowings	NGN	4%	2017	-	-	3,802	3,802
Total interest-bearing loans				436,511	454,256	3,802	127,864

i) Bank of Industry Loan

The loan is a Central Bank of Nigeria (CBN) intervention fund through Bank of Industry (BOI), and is secured through a "duly executed Negative Pledge" (Bank Guarantee) in favour of Fidelity Bank Plc. The applicable interest rate is 10% per annum subject to review by the BOI in line with the prevailing market conditions. The loan is repayable in seventy monthly instalments (including twelve months moratorium between March 2017 to February 2018) at various dates between March 2018 to January 2023.

A sum of N74 million (2016: Nil) is recognised as government grant, being the difference between the low contract interest rate and the fair value measurement using an effective market interest rate of 21%. This amount has been treated as deferred income. As at 31 December 2017, interest expense of N55 million (2016: Nil) accrued on the facility was also capitalised to capital work-in progress (Note 11(e)).

ii) Investment property development financing arrangement

The Company engaged the services of Gauge Construction Servicing Limited ("the Contractor") for the construction, development and management of the Berger Paints Plaza based on a Memorandum of Understanding dated 20 March 2012. The consideration for the investment property development financing arrangement and the services provided by the Contractor is 50% of the rental collections in respect of the property, after the deduction of expenses incurred in the management of the property, for a period of 12 years from 1 November 2013 to 31 October 2025. The consideration is deemed to be the full and final satisfaction of all fees and money due to the contractor in respect of the arrangement. Accordingly, the Company's obligation to the Contractor is measured at amortised cost using the effective interest method and based on the estimated cashflows specified above.

The Company determines the repayment cash flows by estimating the occupancy, rentals and the expected collections in respect of operating leases of the trade shops and offices available for commercial rent over the remaining period.

(iii) Short term borrowings

These represent ex-staff members' entitlements which were converted to loans at an interest rate of 4%. The loans are inclusive of the accrued interest at the end of the reporting period. This amount was paid during the year.

(b) Movement in loans and borrowings

	<u>2017</u>	<u>2016</u>
Balance, beginning of year	127,864	124,062
Additions during the year	349,748	3,802
Repayments	(57,332)	-
Interest accrued	33,976	-
Balance, end of year	<u><u>454,256</u></u>	<u><u>127,864</u></u>

24 Dividends

The following dividends were declared and paid by the Company for the year.

	<u>Per share</u>	<u>2017</u>	<u>Per share</u>	<u>2016</u>
	(kobo)	N'000	(kobo)	N'000

At 31 December 2017	<u><u>321,127</u></u>	<u><u>325,452</u></u>

Notes to the Financial Statements
For the year ended 31 December 2017

26 Related Parties

Related parties include the Company's shareholders, directors, their close family members and any employee who is able to exert a significant influence on the operating policies of the Company. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity.

A. Transactions with key management personnel

i) Key management personnel compensation

Key management personnel compensation comprised the following:

<i>In thousands of naira</i>	2017	2016
Short-term benefits	112,394	99,333
Post employment benefits	4,779	9,605
	-	-
	117,173	108,938

ii) Key management personnel transactions

Directors of the Company control about 2% of the voting shares of the Company. A number of key management personnel, or their related parties, hold positions in other companies that result in them having control or significant influence over these companies.

A number of these companies transacted with the Company during the year. The terms and conditions of these transactions were no more favourable than those available, or which might reasonably be expected to be available, in similar transactions with non-key management personnel related companies on an arm's length basis.

The aggregate value of transactions and outstanding balances related to key management personnel and entities over which they have control or significant influence were as follows.

<i>In thousands of naira</i>	Transaction values for the		Balance outstanding as	
<u>Transaction</u>	year ended 31 December		at 31 December	
	2017	2016	2017	2016
Supply of raw materials*	43,217	130,560	5,682	24,998
Supply of raw materials**	22,278	8,906	-	8,906

Registrar's fees****	4,855	3,780	5,750	945

* During the year, the Company bought various raw materials from Emychem Nigeria. Additionally, a portion of residential apartment rented at Wemabod Estate was sub-leased to Emmychem. The Managing Director of Emmychem is Mr. Raj Mangtani who is also a non-executive director on the Board of Directors of Berger Paints Nigeria Plc. Amounts were billed based on normal market rates for such supplies and were due and payable under normal payment terms.

Notes to the Financial Statements

For the year ended 31 December 2017

** The Company bought various raw materials from Clayton Finance Limited. The Managing Director of Clayton is Mr. Sanjay Datwani who is also a non-executive director on the Board of Directors of Berger Paints Nigeria Plc. Amounts were billed based on normal market rates for such supplies and were due and payable under normal payment terms.

*** The Company engaged the services of Excel Professional Services Limited for the recruitment of certain management staff during the year. The Managing Director of the company is Dr. Oladimeji Alo, and he is also the chairman of the Board of Directors of Berger Paints Nigeria Plc. Amounts were billed based on normal market rates for such services and were due and payable under normal payment terms.

**** Meristem Registrars Limited acts as the Registrars for the Company. The Group Managing Director of the company is Mr. Oluwole Abegunde, and he is also a non-executive director on the Board of Directors of Berger Paints Nigeria Plc.

B. Other related party transactions

The Company incorporated a wholly owned subsidiary in Ghana, Lewis Berger Ghana Limited, on 23 October 2013. As at 31 December 2017, the subsidiary is dormant and had not commenced operations. The Company has not prepared consolidated financial statements on the account of materiality.

27 Financial instruments – Fair values and financial risk management

(a) Classification of financial instruments and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

2017 <i>In thousands of naira</i>	Carrying Amount		Fair value		
	Loans and receivables	Available-for-sale financial assets	Level 1	Level 2	Total
<i>Financial assets not measured at fair value</i>

	<u>1,039,940</u>	<u>-</u>			

*Trade and other payables excludes statutory deductions such as Value Added Tax, Withholding Tax, PAYE, Pension and other non-income taxes payable.

(a) Financial instruments in level 1

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, those prices represent actual and regularly occurring market transactions on an arm's length basis.

The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1. Instruments included in level 1 comprise treasury bills classified as available for sale.

(b) Financial instruments in level 2

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Specific valuation techniques used to value financial instruments include:

- (i) quoted market prices or dealer quotes for similar instruments;
- (ii) other techniques, such as discounted cash flow analysis, sales prices of comparable properties in close proximity, are used to determine fair value for the remaining financial instruments.

Notes to the Financial Statements

For the year ended 31 December 2017

(b) Financial risk management

Overview

The Company has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

(i) Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors has established the Strategy and Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee reports regularly to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Company's Audit Committee is assisted in its oversight role by the Internal Audit Function, outsourced to Bamidele Daramola & Co. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

In thousands of naira

	2017	2016
Trade and other receivables	175,390	381,029
Cash and cash equivalents (excluding cash at hand)	755,642	486,757
Available for sale financial assets	-	187,137
	931,032	1,054,923

Trade and other receivables

<i>In thousands of naira</i>	2017	2016
Trade receivables	67,546	111,537
Deposit with company registrar	46,400	160,369
Other receivables	61,444	109,123
	175,390	381,029

(a) Trade receivables

The Company's exposure to credit risk in respect of trade receivables is influenced mainly by the individual characteristics of each customer. The Company has established a credit policy under which each new customer is analysed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes external ratings when available, and in some cases bank references. Credit sales limits are established for each customer and are reviewed regularly. The concentration of credit risk is limited due to the large and unrelated customer base. The Company has pledged no trade receivables during the year.

The Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified.

Concentration of risk

At 31 December 2017, the maximum exposure to credit risk for trade receivables by type of counterparty was as follows;

<i>In thousands of naira</i>	Carrying amount	
	2017	2016
Wholesale customers	3,478	1,800
Retail customers	116,882	153,274
Other	22,766	49,245
	143,126	204,319

At 31 December 2017, the ageing of trade receivables that were not impaired was as follows:

<i>In thousands of naira</i>	2017			2016		
	Gross	Impairment	Net	Gross	Impairment	Net
Neither past due nor impaired		-	-	81,133	-	81,133
Past due 1–90 days	17,632	-	17,632	21,431	-	21,431
Past due 91–180 days	103,875	(53,961)	49,914	5,375	-	5,375
Over 180 days	21,619	(21,619)	-	96,380	(92,782)	3,598
	143,126	(75,580)	67,546	204,319	(92,782)	111,537

The Company does not hold collateral on these balances. The company believes that the unimpaired amounts that are past due are still collectible in full based on historic payment behaviour and analysis of customer credit risk.

(b) Deposit with Company's Registrar

This represents amounts held with the Company Registrar in respect of payments of declared dividends to shareholders on behalf of the Company. This represents the Company's maximum credit exposure to the financial asset.

The Company's registrar is Meristem Registrars Limited, which has a history of reputable ratings. Based on past experience, the Company has not incurred impairment loss in respect of the deposits with the Company's Registrar as the amount is deemed recoverable.

(c) Other receivables

This mainly represents the rent receivable on the operating leases of the Company's properties.

The Company believes that the amount is collectible based on subsequent payments made by the counterparty and credit worthiness. Other components of other receivables include staff debtors and accrued income which are deemed recoverable based on historical payment behaviours and subsequent collections.

Consequently, the Company has not incurred impairment loss in respect of other receivables.

Cash and cash equivalents:

The Company held cash and cash equivalents of ₦752 million at 31 December 2017 (2016: ₦486 million), which represents its maximum credit exposure on these assets. The cash and cash equivalents are held with reputable commercial banks.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due without incurring unacceptable losses or risking damage to the Company's reputation.

The Company uses standard costing to cost its products, which assist it in monitoring cash flow requirements and optimizing its cash return on investments. The Company aims to maintain the level of cash and cash equivalents at an amount in excess of expected cash outflows on financial liabilities (other than trade payables) over the next 60 days. The Company also monitors the level of expected cash inflows on trade and other receivables together with expected cash outflows on trade and other payables.

Notes to the Financial Statements

For the year ended 31 December 2017

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements:

2017

In thousands of naira

	Carrying Amount	Contractual cash flows					
		Total	6 months or less	6-12 months	1 – 2 years	2 – 5 years	More than 5 years
Loans and borrowings	454,256	454,256	29,793	74,483	178,752	148,972	22,256
Trade and other payables*	432,071	432,071	432,071	-	-	-	-
Dividend payable	321,127	321,127	321,127	-	-	-	-
	1,207,454	1,207,454	782,991	74,483.00	178,752	148,972	22,256

2016

In thousands of naira

	Carrying Amount	Contractual cash flows					
		Total	6 months or less	6-12 months	1 – 2 years	2 – 5 years	More than 5 years
Loans and borrowings	127,864	127,864	3,802	-	39,383	33,179	51,500
Trade and other payables*	586,624	586,624	586,624	-	-	-	-
Dividend payable	325,452	325,452	325,452	-	-	-	-
	1,039,940	1,039,940	915,878	-	39,383	33,179	51,500

*Trade and other payables excludes statutory deductions such as Value Added Tax, Withholding Tax, PAYE, Pension and other non-income taxes payable.

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

(iv) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices that will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing returns.

1. Currency risk

The Company is exposed to currency risk on purchases that are denominated in a currency other than the functional currency of the Company. The functional currency of the Company is primarily the Naira. The currencies in which these transactions are primarily denominated are Naira (₦), Euro (€), US Dollars (US\$) and Pounds Sterling (GBP). The currency risk is the risk that the fair value or future cash flows of financial instrument will fluctuate due to the changes in foreign exchange rates.

The Company's policy is to ensure that its net exposure in respect of monetary assets and liabilities denominated in foreign currencies are kept to an acceptable level. The Company monitors the movement in foreign currencies on an ongoing basis and takes appropriate actions as necessary.

Exposure to currency risk

The summary quantitative data about the Company's exposure to currency risk is as follows:

	2017			2016		
	US\$	€	GBP	US\$	€	GBP
Cash and cash equivalents	54,700	1,221	356	34,994	1,643	356

The following significant exchange rates were applied:

	Average rate during the year		Year end spot rate	
	2017	2016	2017	2016
<i>Naira</i>				
US\$ 1	332.40	253.02	360.00	305.00
€ 1	376.60	278.46	432.30	322.11
GBP 1	429.10	341.35	487.00	375.18

Sensitivity analysis

A reasonably possible strengthening /(weakening) of the naira against all other currencies at 31 December 2017 would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. The analysis assumes that all other variables, in particular interest and inflation rates, remain constant and ignores any impact of forecast purchases.

<i>In thousands of Naira</i>	Profit or loss	
	Strengthening	Weakening
2017		
US\$ (5% movement)	985	(985)
€ (5% movement)	26	(26)
GBP (5% movement)	9	(9)
2016		
US\$ (20% movement)	2,135	(2,135)
€ (20% movement)	106	(106)
GBP (20% movement)	27	(27)

Notes to the Financial Statements

For the year ended 31 December 2017

2. Interest rate risk

The Company adopts a policy of ensuring that all its interest rate risk exposure is at fixed rate. This is achieved by entering into fixed rate instruments.

Interest rate risk comprises interest price risk that results from borrowings at fixed rates and the interest cashflow risk that results from borrowings at variable rates. The Board of Directors is responsible for setting the overall duration and interest management targets. The Company's objective is to manage its interest rate exposure through careful borrowing profiling and use of heterogeneous borrowing sources.

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments was:

Fixed rate instruments <i>In thousands of naira</i>	Norminal amount	
	2017	2016
Financial liabilities:		
Short term borrowings	73,435	5,583
Long term borrowing	380,821	122,281
	<u>454,256</u>	<u>127,864</u>

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable rate instruments

The Company does not have any variable rate financial assets and liabilities as at the end of the year (2016: Nil).

(c) Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders. This is done by using a ratio of adjusted net debt to adjusted equity. Adjusted net debt has been defined as total liabilities, comprising loans and borrowings, less cash and cash equivalents. Adjusted equity comprises all components of equity.

The Company's adjusted net debt to equity ratio at 31st December 2017 was as follows.

	2017	2016
<i>In thousands of naira</i>		
Total liabilities	1,670,280	1,498,084
Less: Cash and Cash equivalents	<u>(755,747)</u>	<u>(486,949)</u>
Adjusted net debt	<u>914,533</u>	<u>1,011,135</u>
Total Equity	<u>2,641,145</u>	<u>2,604,181</u>
Net debt to equity ratio	0.35	0.39

Notes to the Financial Statements

For the year ended 31 December 2017

28 Operating leases

The Company leases out its investment property (see Note 12)

a. Future minimum lease payments

At 31 December, the future minimum lease payments under non-cancellable leases are receivable as

<i>In thousands of naira</i>	2017	2016
Less than one year	53,478	41,366
Between one and five years	22,483	28,400
	75,961	69,766

b. Amounts recognised in profit or loss

Investment property rentals of ₦48 million for the year ended 31 December, 2017 (2016: ₦56 million) was included in 'Revenue' (see Note 4). Depreciation expense on the investment property was included in 'Cost of sales' (see Note 7 and 12).

29 Provision of Non-audit Services

The details of non-audit services and the applicable fees paid during the year ended 31 December 2017 were:

Description of Non-audit Services	Fee Paid
<i>In thousands of naira</i>	₦
i. Tax services	1,500
ii Transfer pricing advisory services	4,200

30 Contingencies

The Directors are of the opinion that all contingencies and other financial commitments have been taken into account in the preparation of these financial statements. There were no pending litigations or claims involving the Company as at year end (2016: Contingent asset of ₦501 million).

31 Subsequent events

There are no significant subsequent events, which could have had a material effect on the state of affairs of the Company as at 31 December 2017 that have not been adequately provided for or disclosed in the financial statements.

Notes to the Financial Statements
For the year ended 31 December 2017

32 Operating segments

a. Basis of segmentation

The Company has three reportable segments, as described below, which are the Company's strategic business units. The strategic business units offer different products and services, and are managed separately because they require different process and marketing strategies. For each of the strategic business units, the Company's Management Committee review internal management reports on a weekly basis. The following summary describes the operations in each of the Company's reportable segments:

<u>Reportable segments</u>	<u>Operations</u>
Paints and allied products	Manufacturing, distributing and selling of paints and allied products
Contract revenue	Rendering of painting services
Investment property rental income	Investment property rentals

The accounting policies of the reportable segments are the same as described in Notes 3.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before income tax, as included in the internal management reports that are reviewed by the Company's Management Committee. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

b. Information about reportable segments

In thousands of naira

	Paints and allied products	Contract revenue	Investment property rental income	Unallocated	Total
2017
